Subject: Letter of Recommendation for Jean-Baptiste Gidrol

Having mentored Jean-Baptiste through the Data Analyst and Data Scientist programs at OpenClassroom for a year, I am pleased to recommend him with great confidence.

Jean-Baptiste has exhibited an extraordinary intellectual curiosity, completing the programs in record time while swiftly grasping key concepts. He has demonstrated an excellent ability to understand and solve complex problems. His analytical approach, combined with methodological rigor, enables him to successfully complete the projects entrusted to him, all while maintaining a high level of autonomy.

He has consistently focused on the quality of his code and best practices, showcasing his professionalism and commitment to excellence. His interest and passion for data science and data analysis are clear, and he is always ready to discuss and share his ideas on these topics.

I am convinced that Jean-Baptiste would be a valuable asset to any team, and I highly recommend him.
